

**Water Districts 37 & 37M
Goals for 2011 Delivery Season**

- 1.) Updating District Decree Books
 - Finish upper valley decree books (both 37 & 37M) as SRBA nears completion (Best estimate 2 years but will be a never ending process)
- 2.) Improve GIS capabilities
 - As SRBA finishes, integrate delivery records into an Arcmap layer (Long-Term 5 year)
- 3.) Continue off-season delivery records
 - Sun Valley Snow making
 - Rinker 11 aesthetic delivery
- 4.) Improve management of Non-consumptive deliveries
 - Install data loggers in Gimlet 9, Aspen Lakes, Rinker 11-11A and Lane Ranch outflow.
- 5.) Continue to improve management of deliveries
 - Continue to coordinate with IDWR to identify surface water rights within the Basin that should be added to the districts' assessment lists.
 - Continue to Install data loggers in remote delivery locations (Lewis 1, Ketchum 2, and Tom P-2) to reduce mileage and labor costs.
- 6.) Continue to cooperate with IDWR in implementing groundwater management.
- 7.) Watermaster to measure the following river stations on a bi-monthly basis:
 - Little Wood River at Richfield
 - Big Wood River at Gooding
 - Little Wood River at Gooding
 - Little Wood River above Shoshone
 - Little Wood River in Shoshone
- 8.) Develop a yearly meeting schedule to insure consistency in planning.
 - 2nd Monday in January – Annual Meeting
 - 2nd Tuesday in February – Audit Presentation
 - 2nd Tuesday in April – Legacy Project donation evaluations
 - 2nd Tuesday in September – Budget planning
 - 2nd Tuesday in December – Finalize Budget and Annual Meeting plan
- 9.) Initiate employee evaluations.
 - Mileage checks
 - Responsibility reviews
 - Performance
